1. The following is an examiner's statement of reasons for allowance: Applicants have limited the claims to having a specific melt viscosity. As indicated in the response the prior art fails to teach or suggest such a value or property. Both reference prepare a polymeric composition that is crosslinked to the extent that the composition do not melt in the claimed temperature range to a viscosity as claimed. Column 14, line 20, of Ito et al. teaches that the polymer can be boiled. Clearly such a polymer will not melt at 100°C. Mueller et al. teach on column 10, line 61, that the polymer sheet is subjected to high vacuum at about 100°C. Again such a polymer clearly will not melt at 100°C. In this manner applicants have establish-ed that their final product is, in fact, different from that prepared by the different process of the prior art. Currently claims 24 and 26 to 47 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Margaret G. Moore whose telephone number is 571-272-1090. The examiner can normally be reached on Monday and Wednesday to Friday, 10am to 4pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Randy Gulakowski can be reached on (571) 272-1302. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
